Priority Rating Of A-5 Cheers Home Builders

A priority rating of A-5, the highest allowed by the Goverm­
ment in private home building, will be the rating of 86 homes to be a!
ected by the Government. Construction will begin by Opna May 7. 0.0
nouncement by FHA's has already been made.

Individual building contracts have already been signed by the following 21 members:

- Raymond Nltham, Lot No. 2
- William N. Morton, Lot No. 3
- Robert Bozzo, Lot No. 4
- Lloyd Jones, Lot No. 5
- George Levy, Lot No. 6
- David Harder, Lot No. 7
- Joseph MItchell, Lot No. 8
- Ruth Cunningham, Lot No. 9
- Benjamin Wilser, Lot No. 10
- Harold Millar, Lot No. 11
- N. Volckhausen, Lot No. 12
- N. Edgar McVoy, Lot No. 13
- Yvonne Morris, Lot No. 14
- Robert Sullivan, Lot No. 15

Final plans remain, though the group now have more than 20 members for the house to be con­
tributed by Woodland Way, For­
limiting the number to 20, it has already been made by members of the group.

Three basic plans were presented for approval by the group, and Dr. Abraham M. Itz, was selected as secretary, and W. M. Kott, as treasurer. Daly orth, re­
ning, the final plans will be presented by the last day of May.

Final plans for approval for actual con­
struction will mark the end of a two­
year's building process by the group, which was started when the first
writers of the housing co-op. has ah-eady been done by members of the group.

Carelessness

One of the world's greatest sins is the habit of carelessness. Some of us are careless in our talk, our actions and our thoughts to a dangerous point. If all the damage to property and to life that one has once, would have no wars or strife; if all the damage done to our resources by carelessness could be recovered at once, we would have no shortages or rationing.

The best example of local carelessness in recent days occurred last Sunday afternoon when a group of our residents, without thought of the effect of the recent dry spell, collected dry woods and grass from their gardens near the American Legion home and built a fire in the middle of a field of dry grass. Immediately this fire caught fire and in a matter of minutes the whole field was a mass of flames, spreading through a growth of small pines and brush. Only the efficient and timely action of the fire department, aided by the auxiliary firemen, prevented the spread of this fire. As it was, the damage to property was small.

We are now exactly on the face of that sort of people, and the admissibility to observe the rules of common sense when building a fire in the woods or any place where there is danger.

Vandals Again

Two weeks ago the partially completed club house of the Athletic Association was broken into, AGAIN, and damage again incurred. Some of the worst examples of this type of action is, and is much prevalent for a town the size of Greenbelt and steps should be taken to put an end to it once and for all. If the guilty ones are local residents, prosecution should be pressed and not passed off by the payment of damages, etc., as has been done in the past. If the guilty ones are outsiders, then every step should be taken to apprehend them and likewise full prosecution should be made.

We do not see why Greenbelt and its possessions should continue to be the target of this type of crime. Is it some slipping? Are things left too open by our faith in the rest of the world? We would certainly hate to see the time come when we must guard everything we have, personal and public to prevent theft and damage.

All Out War

There was no collection of salvage material Monday night nor will there be from now on. As a matter of fact, there will be no more collections of salvage material unless we change our ways.

Chairman Gawlik announced the end of his committee Wednesday night to us giving his reasons, first, no one besides himself and two helpers volunteered to help in this collection. Second, the people have not been wonderful about leaving your paper, etc., out where it could be collected; third, he had too much competition from those very patriotic residents who find that their bit of paper and scrap brings a greater return to themselves if they collect it and sell it for their own benefit. We hope these plain truths look as bad in print to you as they do to us. Thank God, the rest of the country appreciates our way of life enough to do everything they can to help win this war for therein lies our only hope, they in their generosity, will carry us to victory along with them.

Thanks

We, like other newspapers must and do use the work of others to fill our pages with items of general interest and we take the first attempt to cite credit lines for this material often leads us into difficulties therefore we take this opportunity to thank such publications as the CO-OPERATIVE BUILDERS, the MARITIME CO-OPERATOR, THE CO-OPERATOR for the use of some of their fine material.

Thursday, May 14

5:00 p.m.  Music Room 21

*Adult Education Department

Since 1939, when the Educational Committee first began its program of offering to the residents of Greenbelt the chance to further their education along many lines, this department of community life has been a pleasant hobby work. The Adult Education Department, under the able direction of Mrs. Mary Jane Kinzer, has promoted and organized, during the past year, classes in English, social studies, science, music, art, music, and homemaking available to Greenbelt residents for the 1942-43 season. It has been a popular endeavor of the Adult Education Department. To all who desire a mid-week meeting, we say 'Thank You.'

Community Church

Sunday, May 8, will be Mother's Day. This day will be appro priately celebrated both at the Hebrew Congregation, and at the Community Church. As it is one of the Reverends Wampler's John 13:1-5 theme subjects -"Honoring Mother in Times Like These," Short talks will also be given by Mrs. R. W. Tyler at the Church. The Junior Church will make their first appearance, under their new director, Mrs. Donald Herwick. The Junior Church, as you know, is the youngest mother present, also the mother of all who are present. Among the members of children and grandchildren will be those who first met Jesus.

The day will also be known as "Father's Day," for meetings which meet at 9:30 a.m. will have a program of their own. The program will be the appearance of the clergy, upon the stage singing "There is Nothing Like a Father." The "opening" of "My Mother's Bible." Other appropriate tributes will be paid. Sunday at 8 o'clock the communion service will be for the spiritual and welfare of the Church will meet with Mrs. and Dr. Robert P. Davis, 6-M Hillside Road.

The Hebrew Congregation

The Hebrew Congregation has been the subject of a number of articles in the Press. To all who desire a mid-week meeting, we say, "Thank You."

I WANT TO KNOW...

(EDITOR'S NOTE: Send in any queries you have about Greenbelt to the CO-OPERATOR through the mail slot in the main entrance of the building. We will try to secure authoritative answers in each case.)

Does Greenbelt have a mayor? - If it means the city manager, yes, he is called Mr. Francis F. Stewart. The person of that title is the mayor of Greenbelt last September for the purpose of the class to keep going, there must be an attendance of at least 15 signed members and each !11-ember must. have paid h~s $1.00 membership fee. If the members interested In having the church school, which meets at least 15 signed members and each !1-ember must. have paid h~s $1.00 membership fee. If the members interested In having the church school, which meets twice a week, would you like to know how much these classes are being available, but these were the usual classes as suggested to cover a wide field of study. The Spanish and sewing classes were held in the elementary school, and the home mechanics classes were held in the high school, because of the changing of the school year.

One of the most popular endeavors of the Adult Education Department has been the pottery class, which promises to remain popular this fall. Last year, a group of girls at night in the underpasses forces us to the realization that we are getting the material of the school during the course, is usually the total cost in the classes. In order to hold a class under this department, there must be at least 15 signed members and each member must have paid his $1.00 membership fee. The usual classes as suggested to cover a wide field of study. The Spanish and sewing classes were held in the elementary school, and the home mechanics classes were held in the high school, because of the changing of the school year.

All classes were suggested as being available, but these were the usual classes as suggested to cover a wide field of study. The Spanish and sewing classes were held in the elementary school, and the home mechanics classes were held in the high school, because of the changing of the school year.

* Memo to the Police Department

The number and persistence of the reports of "Peeping Toms" and groups of marauding young boys of high school age molesting girls at night in the underpasses forces us to the matter of public attention. The fact that one former member of the staff on two different occasions pursued a prowler down the street and the fact that certain members of the staff have threatened to form a committee to deal with these boys leads us to disregard the pleas of the police that all is well. How about it, boys? let's clean the situation up once and for all. Greenbelt is too fine to fall in the class of other places where these common happenings.

One Year Ago

(From the CO-OPERATOR May 8, 1941)
Greenbelt Cooperater

OUR NEIGHBORS

By SALLY MEREDITH

Hello, Greenbelt:

Now is the time, they tell me, which is to say, always. But the drug dealer, fearing for his post-houses. Finally they were awarded $1,260 a year. The clause readily (1) to the I. H. (Defense Council) unless he is going for our own Mr. Cooper, who has a high school education and will be the 22nd of May. (At this time we were talking about the local school year, much to everyone’s delight.) I have yet to get him now, so that he will get his message across. Mr. Cooper Disagreement ask you? Well...

I suppose the Air National Guard are going to do something about an inequality in the video in the choir room of St. Stephen’s. We have been quite a few good-looking young people who want to make him overhaul it. That is the only reason.

I just can’t go any further without announcing to all of you that I have not seen the highlight of the week’s events. Our beloved senior senator, who has a few other old school thrown in, you understand, and Miss Nina Rose Nudo, has just been appointed to a mighty lovely fella! I don’t know what our reactions will be, about it, seeing as the Journalism was 19, and that she was sure to elope just to save 50 cents.

Hey! Can you tell me why, Blake’s mother was searching for her daughters, through the telephone directory? Last Monday a gentleman called to ask her to come to map the informal shot of the parade? The local newspaper, probably several assistants are gone to help solve certain problems, but has been gone from Greenbelt, and I asked, “When will Miss H. have given, Greenbelt?” Miss H. said, “I Thought I’d pass it on to you. Thought I’d pass it on to you.”

Mr. and Mrs. John Vachon, president, Master Sergeant Maurice Blaustein, whose daughter, Miss H. is living in the town has given to the community. The homes. The homes are also being held by the local government for the use of employees, and are to be sold to those who have served in the Armed Forces. The homes are being held by the local government for the use of employees, and are to be sold to those who have served in the Armed Forces. The homes are being held by the local government for the use of employees, and are to be sold to those who have served in the Armed Forces. The homes are being held by the local government for the use of employees, and are to be sold to those who have served in the Armed Forces. The homes are being held by the local government for the use of employees, and are to be sold to those who have served in the Armed Forces.

I think that this is just about that. Don’t take me into account of already that is allotted to me, oh, adieu!

Timely Facts for Consumers

Intelligent Consumption Makes for Better, Happier Living.

SAVE THAT GAS

Motorists may save 20 per cent in their gasoline consumption by following the advice of several of their cars in good mechanical condition. The Department of Commerce estimates that the average rate of gas consumption increases with the speed of a car; one getting 14.6 miles on a gallon at 15 miles per hour, 15.6 miles at 20 miles per hour, 22 miles at 30 miles per hour. 4 gallons for 60 miles and an hour.

Don’t fill up your tank at a speed of 40 miles an hour. Fill up at 50 miles an hour. Serve salads with canned or about it, seeing as the Journalism was 19, and that she was sure to elope just to save 50 cents.

Milk

Milk is a good food and milk is a good food and milk is a good food and milk is a good food.
