'Pop' Contest Winner To Be Queen; Pro Talent Booked For Festival

by Russell Greenbaum

A special variety show entitled "Beverly Presents" composed of professional talent from Baltimore will highlight all four nights of the Greenbelt Festival on September 2-5 over the Labor Day Weekend. There will be a completely different show of several acts each night with Miss Beverly Marsh, producer of the show, serving as mistress of ceremonies.

The entertainment will feature a variety of popular, country music, and selections of Cole Porter numbers. All of the performers appear regularly throughout the state at various functions. The shows will start at 8 p.m. on Friday night and at 7:30 p.m. on the remaining three nights.

Fishing Rodeo

Another feature of the festival is the annual Fishing Rodeo, which this year will be limited to children under 14 years of age. The contest will be at the Greenbelt Lake on Saturday, September 3, from one to six p.m. Prizes of rod and reel sets, rods, reels, and lures, which are being placed on display at the Variety Store, will be awarded to both boy and girl winners.

Registration, which is necessary before participating in the Rodeo, will begin at 12 noon and continue until 4 p.m. The fishing contest will end at that time, and the casting contest for accuracy only will begin at 4:30 p.m. There will be prizes for the largest fish, the smallest legal fish, and the most fish. Hot dogs and drinks will be available at the Lake.

Popularity Contest

Another phase of the Festival, the popularity contest, is building up steam. Six organizations have already entered contestants, and others are expected. Grace Wolfe is the entry of the Greenbelt Veteran Housing Corporation, Betty Jensen is the choice of the Truman Riddle Navy Wives Club, Maureen Moore is being sponsored by the Boys Club, Addie Speziale has been entered by the Little League, Sharon Thomas has been chosen by the Lions Club, and Nancy Kurth is being sponsored by the Fire Department and Rescue Squad.

The winner of the contest will be made Queen of the Festival and be featured in the mammoth Labor Day parade. All contestants have been asked to meet with the contest committee this Thursday, August 25, in the city council room to discuss details of the contest.

Art Exhibit

Entries for the art exhibit are coming in slowly, and Ben Abramowitz, who is in charge of the exhibit, has urged all local residents who are interested in any type of art to submit a sample of their work for display. No unusual talent is required, he pointed out, and this will provide a chance for those who like to dabble in art work to have a public display.

The exhibit will be set up around the fence of the swimming pool. Six trophies will be awarded in various categories such as weaving, art knitting, basket-making, ceramics, enameling, painting, sculpture, leather work, photography, lettering, children's art, art collections. All those interested should drop a post card to Abramowitz at 3-L Eastway.

Water Pageant

The special water pageant to be produced by the Recreation De-

Kindergarten Starts Monday, Sept. 12

The Greenbelt Cooperative Kindergarten, an accredited kindergarten holding classes at Center School and North End School under the supervision of the Board of Education and the school principals, announces that the 1955 session opens Monday, September 12.

All parents wishing to register their children must do so before August 31. Registration will be open to out-of-town residents from August 20 through August 31. In order to be eligible, the child must be 5 years old by December 31, 1955 and must be vaccinated.

A "helping mother" program is being initiated this year, which means that each mother will assist the teacher about one day in every five weeks. The Board of Directors is arranging an orientation program to take place the week before school starts so that the mothers will have an opportunity to meet the teachers, visit the class-rooms, learn the functions of the "helping mother" program, discuss schedules and opening day plans. Date of the meeting will be announced through individual notices to parent-members.

For information concerning registration call Mrs. Robinson -5153 for Center School and Mrs. Hatton-3351 for North End.

partment is now in rehearsal under the direction of Miss Marsha Cianno. The pageant, which will be held at the pool on Sunday evening, will feature synchronized swimming, diving exhibitions, and clown divnig.

Square Dance

The square dancing scheduled for Friday and Saturday nights will be held on the handball court, not on the tennis courts as previously announced. The well known Hildebrand will call the dances, and a hillbilly trio will entertain at 10 p.m. Paying for popular dancing on the Centerway will be the Merry-makers orchestra.

Floats

Presenting the floats in the Labor Day parade will be Ken Smith, who will be the master of ceremonies at the reviewing stand. Following the parade, there will be a Fire Dept.-Rescue Squad contest consisting of a "Standing Hook Up," a "Running Hook Up," and a first aid contest.

The cooperation of the Greenbelt Consumer Services, Inc., has greatly contributed to the promotion of the Festival, according to the Festival Committee. GCS is paying for the printing of the programs, is donating some of the trophies, will distribute free favors, and is performing many other services for the Committee.

The complete list of the trophies to be awarded and their donors is printed elsewhere in this issue of the News Review. The complete program will be printed in next week's issue.

Wet Weather Record Set In Greenbelt

by William H. Klein

August 1955 brought a variety of unusual weather to Greenbelt. During the first week of the month the temperature rose to over 90 degrees F. every day, reaching a maximum of 100 degrees on August 3, and there was practically no rain. This was a continuation of the hot dry weather which had prevailed throughout July, when total rainfall measured only 1.69 inches and monthly mean temperature was the highest on record. The heat wave was broken on the night of August 7 by a series of thunderstorms which heralded the passage of a cold front and the arrival of a cool air mass from Canada. A prolonged rainy spell then ensued, with measurable precipitation observed on 8 of the next 10 days, as shown in the accompanying table. Thanks to cloudy skies, the temperature stayed below 90 degree F. during this entire 10-day period.

Highlight of the rainy period was the passage of two tropical hurricanes within the short span of a week. Both entered the country in North Carolina and then moved northward on an overland route toward Greenbelt, with Connie passing about 25 miles to the east and Diane about 100 miles to the west.

Connie, the first hurricane, was responsible for gusts of wind up to 60 miles per hour and an unprecedented amount of rainfall totalling 8.07 inches in two days. Almost all of this rain was measured on the morning of August 13, when the 24-hour accumulation was 7.86 inches. The highest previous 1-day amount in Greenbelt was 4.22 inches, recorded on September 1, 1952 after the passage of another tropical hurricane close to Greenbelt. Diane, the second hurricane, was quite weak as it crossed this area, but it still produced 2.20 inches of rain in 2 days. The infamous hurricane Hazel of last October 15 moved much faster than either of this year's hurricanes. As a result it produced stronger winds but less rain (only 1.59 inches).

The rainy spell ended as suddenly as it had begun, and it has been sunny and hot again every day since August 19. However a series of violent thunderstorms on August 22 dropped an additional 2.11 inches of rain on Greenbelt and brought the month's total rainfall up to 14.91 inches, about 1/3 of the amount normally received in an entire year. Even if no more rain falls during the remainder of the month, this August will go down as the rainiest month in Greenbelt's history.

Daily Greenbelt Precipitation during rainy spell of August 1955. Rain in inches is total amount accumulated during 24 hours ending 7:30 A. M. on date shown.

Registration For City Elections Attracts 337 New Voters; Total 986

by I. J. Parker

There will be eight names on the ballot during the city council election September 20. All incumbents are running again: Mayor James Wolfe, Thomas Canning, Benjamin Goldfaden, Robert Hurst, and James Smith. Three new candidates are Alan Kistler, Louis Tierney and William Seigel.

CANDIDATES SPEAK

Candidates for the Greenbelt city council are to be given a chance to express their views at an open meeting on Thursday, September 15, 8:30 p.m. at the Center school auditorium. The Greenbelt Lions Club is again sponsoring this forum so that all citizens may have an opportunity to hear the candidates.

Deadline for filing for candidacy was reached Monday. It was also the deadline for new voting registration and city clerk Winfield McCamy disclosed that 337 new registrations were recorded. Left on the books as still eligible to vote are 649 voters, for a total registration of 986. (Last election found 901 eligible voters with 618 voting.) Last Saturday, 120 Greenbelt residents registered.

As yet no dramatic issues are at stake in the election, and the political atmosphere in Greenbelt is calm. However, candidates are expected shortly to disclose their platforms to the voters.

Drop-Inn News

Drop Inn news is starting again to give everyone all the dope about our teenagers and their clubs.

Yes, the Drop Inn opens again starting September 9 with a big Grand Opening.

It will be held at the Center School from 7:30 to 11 on Fridays and Saturdays, and from 7:30 to 10 on Wednesdays.

Our new officers are Barry Powers as President, Joan Moseley as Secretary, and Barbara Mosley as Reporter.

So we want all you teenagers to come and join the fun.

Election of a councilman depends on a majority of votes; if less than five candidates receive a majority, a "run-off" election is held the following week, with the next two highest candidates running for each vacant seat on the council.

Councilmen select the mayor, but practice has been to select the councilman elected with the highest total of votes. Council members serve a two-year term and receive a salary of \$500 a year. The present council raised the salary from \$250 to take effect following the election of new council members.

Commander John L. Hoffman Honored At American Legion Installation

Commander John L. Hoffman and ten other post officers and executive committee men of Greenbelt Post No. 136 of the American Legion were installed in a ceremony at the Post Home on Thursday, August 18. The installing officer was Area Commander Edward Dionne.

Installed in their positions were Commander Hoffman, First Vice Commander William A. Clark, Second Vice Commander James W. Smith, Jr., Finance Officer Paul H. Cherry, Historian Charles A. Link, Jr., Chaplain Harry L. Bell, Sergeant at Arms William G. Maguire, and the following executive committeemen: Clarence C. Anders, Leroy H. McCauley, and Edward C. Kaighn, S., and Thomas R. Freeman. J. Wayne Roberts was appointed by Commande Hoffman to serve as Post Adjutant.

Guests of honor at the ceremony were Southern Maryland District Vice Commander David Brigham and Department Commander Benjamin Buckner.

The guest speaker was Lou Brissie, former major league baseball star, who is Commissioner of American Legion Junior Baseball. Brissie played for the Philadelphia Athletics and Cleveland Indians from 1947 to 1954 when he voluntarily retired from baseball. He served in the European theater during World War II and was twice wounded. Brissie is a member of the Ware Shoals, S.C., Post No. 100 and of Voiture 435 of the 40 & 8, Greenwood, S.C.

Dr. Crowder Preaches At Baptist Chapel

Dr. William J. Crowder will preach for the morning and evening worship service of the Greenbelt Baptist Chapel at the Center School Sunday, August 28, 1955.

Dr. Crowder, a resident of Greenbelt, was the founder and first pastor of the Greenbelt Baptist Chapel and served from October 1953 to January 1955. He is the Director of the Department of Evangelism and Missions of the District of Columbia Baptist Convention.

Dr. and Mrs. Crowder recently returned from the Glorieta Baptist Assembly, Glorieta, New Mexico where they attended the conference on Directors of Evangelism and Missions of the Southern Baptist Convention.

The morning worship service at 11 a.m. and the evening service begins at 7. Both services are held in the Center School.

'Iron-Man' Phelan Leads Mens Nine To Win

Greenbelt's mens baseball team moved into a three-way tie for first place in the Montgomery county league race for the baseball pennant. By virtue of two spirited wins over Bethesda, 4-0 and 13-6, the team is determined to stay on top and bring the championship to Greenbelt.

Greenbelt called on "Wild Bill" Phelan in the first game to handle the pitching chores. Bill kept the game in hand after his mates staked him to a 1-0 lead in the first inning. He bore down all the way finishing strong by striking out the last 5 batters, bringing his total for the game to 15. The game was put on ice in the fifth inning as Rube Randolph blasted a triple to right center, followed by a tremendous home run by Terry Collins. Greenbelt added 1 more in the sixth to make the final score 4-0.

In the second game Greenbelt's bats started to boom as they jumped off to a 7-0 lead in the first two innings. After starting pitcher Vern Hoggard faltered in the 4th inning, allowing Bethesda 4 runs, Greenbelt again called on Bill Phelan to take over the mound duties. Bill proved himself to be equal to the ironman task of pitching in both games by allowing only two runs the rest of the game, while his teammates banged out six more, making the final 13-6 in favor of the Greenbelt squad.

Hitting honors for the day went to second baseman Rube Randolph who rapped out six hits for the day. Collins added his big home-run in the opener and shortstop Richard "Bobo" Hause chipped in with four hits in the afternoon's work. First baseman Harry Randolph returned to form blasting a 2 run triple and a pair of "clothesline" singles. Third baseman Ralph Longanecker sparked the tight infield play during both contests.

Greenbelt plays this Sunday at Braden Field 2:30 p.m. against the Bethesda Athletic Club. The team is hoping for a large turnout of home fans to root them into the league lead.

Jewish Holidays

The Jewish Community Center of Prince Georges County has announced its plans for the coming High Holidays. Rosh Hashonah services will begin at sundown on September 15 and Kol Nidre will be heard at sundown on September 25.

Rabbi Maurice Kleinberg, currently a chaplain at Walter Reed Hospital, will conduct services, and the Cantor will be David Myers, formerly of Chicago. Cantor Myers studied in Chicago under Cantor Goldberg and taught music and liturgy for the Jewish Board of Education.

Tickets for members and non members can be purchased at the building any evening. For further information call Charles Danish. GR 4-9530.

ON DINOSAURS

Dear editor;

There are 43 people in Greenbelt interested in buying a dinosaur. If I had a stock of them I could have made a killing. I still don't know who is responsible for the advertisement offering an animal that is extinct for at least 100 years, and placing my phone number in the ad. (Or is there really one for sale and the phone number was a typographical error)

Most people calling me wanted to know what color it was. Others wanted to know the price, and several wanted to know why I was getting rid of it! Was it male or female, one asked.

The calls began Thursday evening and lasted well over the weekend. If any one tells you advertising in the News-Review doesn't pay off, send them to me. Incidentally, as you know, I told all callers they could see the animal by visiting your home. Friday, your wife called mine, and told us to stop sending them over.....

I'm thinking of printing stickers and giving them to callers: "I shop Dinosaur!"

It is amazing that so many residents would want a pet even though they are forbidden by GVHC. Regarding this, I would like to take advantage of your offer to poll candidates for the city council on vital topics in the community. I would like them to state: are they for or against dinosaurs?

Marian Hatton - 3251
Elaine Skolnik - 7586

Mr. and Mrs. Joseph Ditman, 6-U Plateau, announce the arrival of Joseph Lewis on August 11 at Prince Georges Hospital. The Ditmans have three other children—Becky (5), Ellen (2) and Liana (1).
The Percy Andros family, 2-A Northway have just returned from a two week trip to Ogden, Utah where they visited Mr. Andros' parents. It was not an easy trip to make with five children but it was their first trip back in five years and of course well worth all that driving. When they returned Mrs. Andros' folks came in from Boise, Idaho for a week's visit.
Leon and Ruth Newman, 6-D Crescent were a very lucky couple last week. They spent the week at Rehoboth Beach and missed the rain!

Last Friday the Schwimmers, 45-M Ridge had the pleasure of a visit from Sam's brother and sister-in-law, Dr. and Mrs. Herman Lantz from Carbondale, Illinois. They left on Sunday and took Sam's mother Sarah Rosenthal with them to New York for a visit.
On Monday night Lil and Sam celebrated their eighteenth wedding anniversary. Congratulations!
A very novel idea (and a huge for MORRIS Solomon on Saturday night. The Dondys, Greenbaums, and Burrows were responsible for this bit of fun held at the latter's home and appropriate gifts (like aspirin) were tendered.
Mr. and Mrs. Phillip Pakiser and niece Sharon Nelson, 6-R Hillside have just returned from a two-month trip to the West. They spent three weeks at Mammoth Lakes, California, one week in Monument Valley in Arizona and Utah (where they're prospecting for Uranium) and the rest of the time in Oklahoma, Colorado, Utah, Arizona and Indiana. Mr. Pakiser was on a business trip (he'd better watch out — I'm coming down there to look for a job!).
Alan and Marie Kistler, and son Kevin, 7-B Crescent will be spending the week of August 21 at Ohio University in Athens, Ohio, where Mr. Kistler will be teaching a course on industrial union councils sponsored by the Ohio State CIO Council.

Mr. and Mrs. Roland Newkirk, 20-G Hillside announce the birth of their fifth child on August 15 in Prince Georges Hospital. The baby was named Randy and weighed six pounds, three ounces. His brothers and sisters are Ronnie (8), Pat (7), Nancy (6), and Ricky (3).

Thirteen year old Bernice Jones, 14-J Ridge is having a grand time vacationing with Mrs. Jones' dad, Mr. V. H. Keeler Sr. in Front Royal, Va. Bernice has been there five weeks.

Mrs. Greeve and son, 36-B Ridge spent a very pleasant two weeks in the Catskill Mountains, New York. Happy birthday to Eileen Ryss who celebrated her ninth birthday on August 18 with a party. Michael Rosenzweig will be 13 on August 28.

On Monday night Frances Sanders gave a double anniversary party for Edith and Jack Ratzkin and Sid and Irene Spector. (Edith and Sid are brother and sister.) The Ratzkins have been married nineteen years and the Spectors twelve. Congratulations!

Mr. and Mrs. Richard Ellsworth, 8-R Plateau announce the arrival of Joseph Cordon on August 13. Joseph weighed in at eight pounds, thirteen ounces at George Washington University Hospital. He has a brother Richard (5) and two sisters — Madelyn (3) and Barbara (1½).

Bill and Jean Bevan, 22-C Parkway, have just returned from a month's trip to Los Angeles where they visited Mrs. Bevan's relatives. They stopped at Las Vegas and also visited the Grand Canyon and Bryce and Zion National Park. They were accompanied by the Neumanns.

Joan Neumann, 48-H Ridge and her 2½ year old daughter Gail flew out to Vallejo, California and

Notice to all our members and friends. Tickets are now on sale at the J. C. C. building for the High Holiday Services. Please buy your tickets now. Do not wait. spent two months visiting with her parents. Her husband George drove out with the Bevans and they all drove back to Greenbelt together.

Bright and early last Saturday morning (6:30 a.m.) ten members of the Greenbelt Lutheran Walther League left for a week of camping at Camp Pleasant Valley in Western Maryland. The camp is sponsored by the Eastern District of the International Walther League. The campers are: Misses Barbara Bell, Sandra Berg, Delores Brown, Eleanor and Mary Alice Chelstrom, Carolyn Wall, Mary and Carol Wertz; Paul Berg and Wayne Henderson.

Rev. E. H. Birner, pastor of the local congregation, is on the camp staff. Pastor Birner is in charge of music and will lead all group singing. He will also assist with recreation.

The Schumaker family, 1-D Westway are leaving for upstate New York to visit family. Mrs. Theresa Schumaker, now writing for the Prince Georges papers will welcome all news items after she returns on Labor Day. Her number is 8206.

Ruth Bowman and Ellen Linson gave a barbecue party for Ralph and Carolyn Miller on Saturday night. The affair was held in the Bowman's back yard and 26 people attended. The Millers served Greenbelt in many capacities and their friends were sorry to see them leave.

Mr. and Mrs. James Monohan, 48-D Ridge announce the arrival of Julia Ann on August 29. Julia was born in George Washington University Hospital and weighed seven pounds, fifteen ounces. The Monohans also have two boys — James (Jay) 3½ and Michael 1. Mr. Monohan is a copy reader on the News Review.

Sandra Gold, former Greenbelter is visiting the Sanders, 17-J Ridge.

The Granims family, 2-J Plateau is back after vacationing at West Moreland Park, Virginia.

A four week's trip to Utah to visit parents was the highlight of the summer vacation for Mr. and Mrs. Harvey Dean Brown and their two children, 14-T Hillside.

Mr. and Mrs. Cecil Breeden, 1-F Plateau announce the birth of Margaret Lee at Prince Georges Hospital. Margaret, weighing in at five pounds, fourteen ounces has a sister, Rita Ellen.

Sunday afternoon, five friends of Anita Harris, 2-E Eastway went into town for dinner and a show as a farewell gesture. The Harris family is moving to California on September 1 and she will long remember her special friends — Carol Brooks, Ruth Tenebaum, Dorothy Lazeroff, Mickey Leonardo and Peggy Furioso.

Congratulations to Mr. and Mrs. Kenneth Pierson, 52-A Crescent on the birth of a girl on August 11

Civil Defense

by R. Hal Silvers
Civil Defense Director
(The Greenbelt News Review has agreed as an added public service to publish a Civil Defense Column to help enlighten its readers re the necessity for having a strong and efficient Civil Defense organization.)

Operational Functions of Civil Defense

In case of an enemy attack, communications and transportation will be temporarily disrupted. Fighting and rescue equipment, It will be difficult to move fire-medical aid, and supplies where they are needed. How can damage and loss of life be minimized and a community restored to as near normal condition as possible? The answer is found chiefly in the operational plans of the State and County and Town, a program of education for the public, and training of a corps of volunteer workers.

Control Centers

A Control Center is an operations headquarters for the direction and control of civil defense activities during an emergency. It is the communications nerve center for operations, where attack warnings, damage reports, and other civil defense information are received. It goes into action the moment the first attack warning is received and stays on the job until the emergency is over.

The Control Center for Prince Georges County will be established at the Greenbelt Armory. Secondary Control Centers will be established in various sections of the County.

The Control Center has three main functions — to receive information, to issue instructions, and to maintain liaison with higher civil defense authorities. It will be staffed and equipped by Civil Defense Officials to:

1. Receive attack warnings from the proper authorities.
2. Relay attack warnings from the proper authorities.
3. Transmit warning signals to the public.
4. Receive and evaluate damage reports.
5. Dispatch operating units to damaged areas.
6. Collect information, evaluate it, disseminate its essential elements to civil defense services during an emergency
7. Maintain communications with other civil defense authorities for reporting damage, receiving instruction, and requesting reinforcements when needed.

Attack Warning. The main control center is the receiving point for attack warning information from the aircraft warning system and is responsible for passing the warnings on to the public.

Once the civil defense machinery has been set in motion by a warning from the control center, there are certain duties which civil defense officials must prepare to do. Some of these duties are: communications, warden, police, fire, rescue, engineering, health, welfare, transportation, industrial protection, supply etc.

Communications

The communications system is

the nerve network through which contact must be maintained within and between Federal, State and local civil defense organizations.

The Director of Prince Georges County Communications and Warnings is: Edward P. Richards. He is responsible for:

1. Communications between civil defense control centers.
2. Attack warning networks.
3. Fire, police, transportation, rescue, warden, health, engineering and reconnaissance communications.

Richards, during an emergency, will make use of telephone, telegraph, facsimile, radio, television, teletype, and messenger service.

The control center will be equipped with wire and radio communication for the use of key officials of the services and for the officer who must maintain liaison with key broadcasting stations. Operating positions within the control center will be provided for these officials.

Wire communications may include telephones and teletypewriter service to supplement verbal communications between the main control center and State center, and thence to FCDA regional and national headquarters.

Radio may be used to (1) insure continuity of communications if wire service should break down; and (2) communicate with area command posts, mobile reconnaissance teams, mobile units of the radio amateur civil emergency services (RACES), and with the various peacetime organizations already equipped with radio. The latter include the fire and police departments, public utilities, taxicab companies, and sheriff's office.

Amateur radio operators are valuable to civil defense in augmenting the services' communications facilities. Persons with technical training in radio are needed. Michael Lora, Civil Defense Radio Officer can be reached by writing to: Civil Defense Agency, Greenbelt Armory, Md.

Radio Broadcasting

Communications are needed not only for conducting civil defense operations, but also for informing the public of what is happening during an emergency and for issuing necessary instructions. The Federal government, working together, have devised a special broadcasting industry and the system of AM (standard) radio broadcasting to do this. The system is called 'Plan for CONTROL of Electromagnetic Radiation'—CONELRAD for short.

In a civil defense emergency, television and FM (frequency modulation) radio will go off the air, because enemy bombers could home on the station. Only AM (standard) radio programs at 640 or 2340 on the radio dial will keep the public informed throughout the emergency. By alternate or intermittent use of the frequency and at reduced power, no one station can serve as a radio beacon for enemy bombers.

In accordance with the CONELRAD plan, a continuous program of civil defense instruction and reports will be on the air at either or both of these frequencies.

If the power supply is cut off, a battery-operated portable radio is the only means of obtaining information via CONELRAD.

NEIGHBORS from page 2
at Prince Georges Hospital.
The Rev. and Mrs. E. T. J. Birner of Mattoon, Illinois, were recent guests of their son, Rev. E. H. Birner, 18-L Ridge. After leaving Greenbelt, Rev. Birner's parents headed for Florida where they will visit and relax for a few days before returning to Mattoon.
Congratulations to Ina Kornetsky, 2-A Parkway, who received her Degree of Bachelor of Science in Education from Boston University on August 20.

A surprise baby shower was given on Friday, August 19 for Margie Wike, 7-F Laurel Hill at the home of Belva Weisel, 21-D Ridge. Fourteen friends and neighbors presented her with beautiful and useful gifts and a light lunch was served.

Mrs. Leroy Grobrecht, Mrs. Wike's mother, was due in from New Jersey as a surprise guest at the shower but a larger shower (Hurricane Diane) held her up. She managed to get down on Saturday and spent three days with the Wikes.

Mr. and Mrs. Paul Hanyok, 11-K Laurel Hill are proud to announce the arrival of their first child. Paul Michael was born on August 18 in Prince Georges Hospital and weighed six pounds, nine ounces.

Mr. and Mrs. Thomas Trone, 22-D Parkway, are back from a week's vacation in Las Vegas, Nevada. The Trones flew out and back. They report that it is a fabulous place — "not a place for a rest."

Orioles Reading For Title Play

The Orioles finally got some moist-free weather and squeezed in a couple of ball games last week, winning both. They journeyed to Severna Park August 19 to close out their regular second-half Boys Club season by whipping the Severn River lads 7 to 3 as Bob McGlothlin scattered 9 bases on balls, 5 hits and 7 strike outs in his six-inning relief of sore-armed Chuck Clark.

Having no transportation immediately available, the Orioles called on Councilman Jim Smith, who came to the rescue with a nice red Ford truck for the occasion and the "hay-ride" did the Birds no harm at Severna.

Tommy Iveson was the winning pitcher at Braden Field the next day with Chillum, leaders of the Western Division, his not too potent victim. "Ivy" also gave up 5 hits and fanned 7 but was much more accurate with his tosses, walking only two to spark the Orioles' 10-1 inter-division victory.

Little Paul Bigbee, son of Severna's coach, pitched craftily at times but couldn't fool four of the Birds. Dale White got 3 RBIs with a perfect 4 for 4 that included a home run and a two-bagger. Hot-corn guardian Tom Iveson accounted for all the other runs with a tremendous homer to deep center, a double and single in 4 times at bat. Captain Bobby Canning snapped out of his slump as he and Ronnie Don Bullian kicked in with 3 safeties in 4 attempts.

Catcher Bowen blasted a triple off Clark in the first inning and later reached McGlothlin for a single to lead the home team at bat. Donnie Estep's centerfielding was of the highest order for the Birds while shortstop Novotny and third-sacker Olson made some very good plays for the losers.

Greenbelt 0 1 2 0 3 0 1 - 7 13 1
Severna Pk 0 0 0 1 0 0 2 - 3 5 2
Clark, McGlothlin (2nd) and White;; Bigbee and Bowen.

Still feeling around for some stiffer outside competition, the Orioles found pace-setting Chillum just as easy pickings as their own division playmates (University Park please excuse).

With Iveson effectively chilling the Chillum clubbers, Estep, Canning and Dave Goldfaden were doing yeoman batwork for the Birds. "Little E" banged out a double and two singles, scoring twice, in 4 AB's. Canning extended his bat spree with 4 RBIs on a double and single in 3 AB's. Three times Iveson rode home on Canning's blows—one was a sacrifice fly. First-sacker Goldfaden kept the Orioles chirping with a 2 for 4 bat effort and a good day's work around the initial sack, subbing for the vacationing Richie Fonda. Canning and Don Bullian pulled some fine defensive work around the middle bag and Little Don King made a couple of fine catches in left.

Chillum 0 0 0 0 1 0 x - 1 5 3
Greenbelt 4 4 0 0 2 x - 10 11 2
Robinson and Schwab; Iveson and White, McGlothlin (5th).

The Orioles will meet University Park's fine team at Green Meadows Field this Saturday morning at 10. What they will be playing for depends on what UP did at Laurel on Tuesday evening. If UP won from Laurel as expected, Saturday's game will be "sudden death" for the Central Division Intermediate championship. Our Orioles were undefeated first-half winners and UP, with a Laurel win, would be undefeated second-half champs. Should UP have been beaten by Laurel, the Saturday game at Green Meadows would be for the second-half title.

Coach Bill Moore wants all his Orioles to meet promptly at 9 o'clock Saturday morning for the journey to Green Meadows.

Tired of the Same Old Grind?

The News Review, as a public service, has acquired a grindstone. Interested citizens are invited to visit the office at 9 Parkway in the basement on Tuesday evenings to put your noses to the. Also available for those with axes to grind.

Little League 'Co-op' Out Power Pirates 8-5

by Bobbie Taylor

Coach Bernie Emmert's American League COOP team outhit and with the help of O'Neil's fine 4-hit pitching performance beat Coach Lou Tierney's National League Pirates Saturday at McDonald Field 8 to 5. Pirate Pitcher Frankie Day allowed the opposition only 7 hits and had a fine day at bat with three of the four Pirate hits, two doubles and a home run, driving in four of the Pirate runs and scoring himself in the third inning when Longanecker was out on an attempt steal to second on a fine throw from COOP Catcher Hodges to Shortstop Ruppel. Longanecker singled in the Pirate 5th inning, Tierney walked and then followed what proved to be the highlight of the game when Day slammed O'Neil's fastball over the centerfield fence scoring Longanecker and Tierney ahead of him. That was the big Pirate inning although they got a run in the first after White walked, Day ramed one of his first of two doubles scoring White. In the third, Day hit his second double scoring Longanecker who had walked.

The COOP hitting power was displayed by Cozad's single, Hodges and Billings doubles, Powerhouse Klem's double and single and Ruppel's two singles. The first COOP run came in the bottom of the second when Pitcher Day's wildness walked Hodges, Billings and Klem in succession and after striking out Hogan walked B. Emmert forcing in Hodges. Two more were added in the third when Ruppel started it off with his single, O'Neil was hit by a wild pitch, Hodges walked, Billings struck out, Klem got the first of his two hits scoring Ruppel and O'Neil. Four more came in the fourth inning when Cozad singled, Gillette walked but was forced on a fielders choice, Ruppel grounding to Pirate shortstop Rowe who threw to second-baseman White. Then followed the game's most sensational catches when O'Neil tagged one of Day's high hard fast ones to deep leftfield where Patterson made a big-league one-handed running catch. However the COOP power was not to be denied this time as Hodges doubled in Ruppel and Cozad, Billings and Klem followed Hodges and Billings.

Both pitchers had fine strikeout records with Day striking out 9 and O'Neil with 12.

This game gives COOP one-up edge in what may be the best two games out of a three game series. However, that will be determined this Saturday, at 1 o'clock, McDonald Field when these two fine Little League teams meet for the second time. It will be Day pitching for the Pirates and either Hickey or O'Neil for the COOP nine.

The NEWS REVIEW

Speaking of PUBLIC SAFETY

While much attention is devoted to the cost of safe, modern street lighting, the price of inadequate lighting is often overlooked, according to the National Street and Traffic Safety Lighting Bureau.

The National Safety Council estimates the composite traffic accident cost — based on 35 personal injury and 225 property damage accidents for every fatal accident — at \$95,000 per fatality.

Since only one-fourth of all traffic fatalities should not exceed one-fourth of all traffic fatalities.

On this basis, we should have 9,575 deaths whereas actually the annual night toll is 21,000 lives.

The difference between expected and actual night deaths (11,425) multiplied by \$95,000 gives \$1,085,375,000 as one measure of the economic cost of inadequate lighting.

Since modern adequate lighting costs only \$2.50 per capita per year, it would appear that the nation's streets and highways could be adequately lighted at less than half the cost of the economic loss.

Health For All

The Medicine Cabinet

Your bathroom medicine cabinet may be crammed with supplies, but is it well equipped? How many items have become ineffective or downright dangerous from age? Do you know how and how long to keep items necessary to your family's health?

Some equipment will keep indefinitely with proper care. Bandages, antiseptic cotton, tongue depressors, and throat swabs are safe if kept in sealed packages. Bleaches and chlorine disinfectants, boric acid powder and ointment, cough syrups, mouthwash, mineral oil, petroleum jelly, rubbing alcohol, and sodium bicarbonate all keep indefinitely in tightly closed jars and bottles.

Other items deteriorate with age. Adhesive tape dries out. Antihistamines, hydrogen peroxide, and nose drops lose effectiveness in one to one and a half years. Throw away aspirin if tablets have a vinegar odor or if crystals have formed; soda mints if crumbly; antiseptics if cloudy, or if there is sediment in the bottle; milk of magnesia when dry and caked, ointments and salves that have separated, darkened, or if the tube is corroded.

Keep iodine, essence of peppermint, spirits of camphor and ammonia tightly closed to prevent evaporation. When iodine evaporates, it becomes concentrated and can burn badly. Argyrol deteriorates rapidly and can become dangerous; discard after 30 days. Eye-wash and eyedrops may develop a dangerous fungoid growth if kept too long.

The refrigerator is the place for cod liver oil, vitamins, mineral pills, and antibiotics. One year is the limit for vitamin capsules, six months for tablets and elixers. Never keep antibiotics beyond the expiration date printed on the package.

Tips On Painting

scraper works better than a blade where the paint is cracked but not peeling. Peeled spots usually have weathered sufficiently without further scraping.

For the best results over a rusted surface, prime with a Tame Rust primer. Reduce the primer about 25% to insure a better, longer lasting job. The Tame Rust reducer has a specially formulated oil that actually absorbs the rusty surface. After the prime coat has dried four days or more, you can second coat the surface with the Tame Rust Finish coat.

To keep the metal on basement windows from rusting out, scrub the dirt and rust with a wire brush. Paint the clean metal with the Tame Rust Primer; then follow up with the finish coat.

When you start to put the metal on your house in shape, you might find holes already rusted out in gutters, downspouts, metal roofs or other exposed sheet metal. These are easily patched with house paint and canvas. Cut a piece of fabric an inch larger than the hole. Apply paint to surface, press canvas over paint, then saturate the patch with more paint. Build up several thicknesses if necessary. Patch will continue to remain strong with painting.

Don't forget to inspect the metal on your house! Whether you live in a wood or brick home, you still have plenty of valuable metal construction that represents an expensive investment. Check it over in late summer or early fall before it takes its terrific winter beating. This protective problem is different from any other on your house — rust. Rust eats away metal and destroys it faster than an army of termites on wood. You can tame rust by proper painting.

Tame Rust paint products, made under U. S. Government Spec. TTP-636B, are designed to retard rust on new or old metal surfaces such as eaves-troughs, drainpipes, casement windows, exposed flashing, porch furniture, playground equipment, or any of the metal used around a home. The finish coat is a gloss enamel, alkyd-type, which comes in six colors: yellow, orange, green, red, gray and black. It is simple and easy to use and gives excellent protection.

First step: scrape loose paint. Paint doesn't stick well to galvanized surfaces unless they have weathered about six months. For the scraping job, an end
